PROFESSIONAL SUMMARY

Aspiring AI & ML Engineer and B.Tech IT student with a solid foundation in Python, predictive modeling, and deep learning. Certified by IIT Guwahati/Cybrom, with proven experience building end-to-end ML pipelines, including data preprocessing, feature engineering, and model deployment. Eager to contribute technical expertise to an innovative engineering team through an internship or entry-level role.

TECHNICAL SKILLS

- Languages: Python (Advanced), HTML/CSS
- Machine Learning: Regression, Classification, Clustering, Random Forest, SVM, XGBoost
- Deep Learning: ANN, CNN, TensorFlow, Keras, Yolo, OpenCV.
- Libraries: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, Surprise
- Tools & Workflows: Git/GitHub, Jupyter Notebooks, Data Cleaning, EDA, Model Evaluation (RMSE, MAE, F1-Score)

PROJECTS

Movie Recommendation System | *June 2025*

- Developed a hybrid recommendation engine utilizing Collaborative and Content-Based Filtering to provide personalized user suggestions.
- Implemented the Surprise Library to handle sparse datasets and optimized the model for higher precision in user-item matching.
- Tech Stack: Python, Pandas, Scikit-learn.

House Price Prediction | *March 2025*

- Engineered a high-accuracy regression model to predict real estate pricing based on 15+ variables.
- Conducted extensive Exploratory Data Analysis (EDA) and handled missing data and outliers to improve model R-squared scores.
- Utilized Scikit-learn for feature scaling and cross-validation to ensure model robustness.
- Tech Stack: Python, Pandas, NumPy, Scikit-learn, Matplotlib.

EDUCATION

Bachelor of Technology (B.Tech) – Information Technology *University Institute of Technology, Barkatullah University* | 2023 – 2027

Focus: Data Structures & Algorithms, Artificial Intelligence, Database Management.

CERTIFICATIONS

Certification in Artificial Intelligence & Machine Learning *Cybrom Technology (in collaboration with IIT Guwahati)* | 2025 – Present

Intensive training on ML algorithms, pipeline implementation, and neural network architectures.

SOFT SKILLS

Problem-Solving: Strong ability to deconstruct complex algorithmic challenges.

Leadership: Experienced in team-based project management and collaborative coding.

Communication: Skilled at translating complex data findings into actionable insights.
